

Artwork Requirements

Providing a **Logo**

...write across the board.

Sending us a Logo

If there any images and/or logos you would like to send to us they must be saved as: CMYK & NO LESS THAN 300DPI.

Please ensure logos and images are 300dpi @ 100% full print size.

- ✎ Pantone logos can only be saved as vector EPS via InDesign or Illustrator. Photoshop cannot separate pantone refs for print.
- ✎ CMYK logos should be supplied as a EPS or 300 dpi JPG / TIF.

Brand Guidelines

If your brand has a set of brand guidelines on use of the logo, fonts and brand colours, please supply alongside logo. This will ensure we follow your brand correctly.

How to send the file to us

- ✎ Artwork can be emailed to sales@magiboards.com
- ✎ Copy instructions and a contact name, address, telephone number and e-mail address should also be supplied.
- ✎ All files sent by email have to be compressed by ZIP programs and a PDF file has to be attached.
- ✎ Please note subsequent amends or work required to bring it to the correct specification will result in an additional charge.

Magiboards is very happy to generate any artwork for you from a sketch, please contact customer services on 01952 292111
